

**Latin American Human Papillomavirus Symposium  
26-27 April 2018  
Catholic Argentine University Auditorium  
Buenos Aires – Argentina**

**Preliminary Program**

**Thursday, April 26<sup>th</sup>**

07:00 a 08:30

**Registration**

08:30-09:10

**Opening Plenary Lecture - Nº 1:**

*Chair: María Alejandra Picconi*

**“HPV as an etiologic agent for human cancer: the history of a major public health concern”**  
**Silvia de Sanjosé**

09:15-10:40

**Round Table Nº 1:**

**“The biology of Human Papillomavirus (HPV)”**

*Chair: Daniela Gardiol*

\* HPV Life Cycle Strategies and Disease

**John Doorbar**

\* Relationship among HPV detection, the dynamics of the vaginal microbiota and the patient immune status in different age population settings.

**Patti Gravitt**

\*An updated review of validated HPV detection methods for clinical application  
**Jorge Basiletti**

10:40-11:10

**Break**

11:10-12:55

### Round Table Nº 2

#### **“A Critical Interpretation about the Screening for Cervical Cancer Prevention: Strengths and Weaknesses”**

*Chair: María Alejandra Picconi*

\* HPV screening: role of systems thinking in implementation research.

**Patti Gravitt**

\* HPV Detection in the Screening of Cervical Cancer: Trends and Innovations

**Rolando Herrero**

\* Screening in Europe. Is this the model to be followed in Latin America?

**Silva de Sanjosé**

\* HPV testing in primary screening: the Argentinian experience of the National Programme for Cervical Cancer Prevention

**Silvina Arrossi**

13:00-14:30

**Lunch break**

14:30-16:15

### Round Table Nº 3

#### **“HPV infection in other anatomical locations beyond the cervix”**

*Chair: Mariel Correa*

\* New insights into HPV-induced lesions in the mouth

**Ricardo Sforza**

\* Current focus on the oropharynx HPV-induced lesions

**Ricardo Marengo**

\* New diagnostic and therapeutic algorithms in vulvar lesions

**Celeste Sluga**

\* Natural history of HPV infection and pathogenesis in men

**Luisa Villa**

\* Progresses for the diagnosis and treatment of HPV-induced lesions of the anus

**Rita Pastore**

16:15-16:45

**Break**

16:45-17:25

**Plenary Lecture N° 2**

*Chair: Juana Elida Mauro*

**“Evidence and Impact of Latent HPV Infections”**

***Patti Gravitt***

17:30-18:30

**Opening Ceremony**

*Juana Elida Mauro y María Alejandra Picconi, Chairs of the Latin American Human Papillomavirus Symposium-2018*

**Artistic Event**

**Friday, April 27<sup>th</sup>**

08:30-09:10

**Plenary Lecture Nº 3**

*Chair: Virginia Alonio*

**“The future of cervical cancer screening”**

**Luisa Villa**

09:15 -11:00

**Round Table Nº 4**

**“Novel Diagnostic and Therapeutic Approaches for Cervical HPV-Induced Lesions”**

*Chair: Andrés Humphreys*

\* Biomarkers in Clinical Diagnosis

**John Doorbar**

\* A renewed histology: the LAST classification

**Alejandra Maciel**

\* Clinical convenience of HPV detection

**Fernando Monge**

\* Electrosurgical excision in the treatment of SIL: When, why, where and who should be treated?

**Andrea Velazco**

11:00-11:30

**Break**

11:30-12:55

**Round Table Nº 5**

**A different look for a frequent clinical problem**

*Chair: Alberto Santomé Osuna*

\* Strategies for the condylomatosis in the lower genital tract

**Elida Mauro**

\* The use of immunomodulators: bringing a new perspective for treatment.

**Claudia Marchitelli**

\* Current approach in the management for multicentric lesions

**Verónica Suzuki**

13:00-14:30

**Lunch Break**

14:30-15:10

**Plenary Lecture Nº 4**

*Chair: Juan Mural*

**“HPV test Screening and triage for the prevention of cervical cancer in Latin America. The ESTAMPA project: preliminary results”**

***Rolando Herrero***

15:15-15:55

**Plenary Lecture Nº 5**

*Chair: Miguel Tilli*

**“The impact of HPV-induced diseases on the HIV-positive population”**  
***Valeria Fink***

16:00-16:30

**Break**

16:30 a 17:10

**Plenary Lecture Nº 6**

*Chair: Alejandra Maciel*

**“HPV Tropisms and the Cellular Regulation of Neoplasia”**

***John Doorbar***

17:15 a 19:00

**Round Table Nº 6**

**“Primary prevention of HPV infection and the associated diseases:  
current status and future prospects”**

Chair: *Diego Häbich*

\* Efficacy, Effectiveness and Safety of HPV Licensed Vaccines

**Silvia de Sanjosé**

\* Assessment of alternative HPV vaccination schedules: Would a single dose be sufficient?

**Rolando Herrero**

\* Impact of the HPV prophylactic vaccination in the world

**Luisa Villa**

\* Current Status of HPV Vaccination in Argentina: Outstanding Achievements and Challenges

**Nathalia Katz**

19:05 a 19:30

**Closing Ceremony**

**Concluding Remarks**
