## What's new in IPVS?

*July 2022*

### Message from the IPVS President

**Prof. Suzanne Garland**

Dear members,

I hope that you are all keeping well.

The first half of the year has been dynamic for the society. We started new initiatives such as the **IPVS Mentorship Program**, the first **IPVS ECHO® meeting** and **focus groups** with lapsed members. New working groups have been created: the **IPVS early career working group** and the **IPVS social media task force**. Within the Education Committee and the Membership Committee, focus groups have been formed as well to deep dive on certain topics and develop new initiatives.

I would like to remind you that the deadline for [abstract submission](#) for **IPVC 2023** is in about 2 months. We hope that many of you will submit your research to the much awaited face-to-face meeting in Kyoto, Japan.

---

# IPVC 2023

Don't miss the most important news and dates around the conference

IPVC 2023, which will be held on March 27-31 in Kyoto, Japan, will be the place to be if you want to hear the latest advancements and developments in the papillomavirus field. Don't miss your chance to present your research and participate in the conference by [submitting your abstract](#) by **September 7, 2022**.

See the [abstract topics](#) and prepare an amazing piece of research.

[Submit your abstract now >>](#)

Join our international speakers including Dr Barney Graham, Dr Ruanne Barnabas, Prof Richard Roden, Prof Mayumi Nakagawa, Prof Helen Rees and many others for five days of cutting-edge science. Explore the first [program highlights](#) to find out more.

Watch the **invitation message** from the Co-Chairs, Prof Suzanne Garland and Prof Toshiyuki Sasagawa.

## IPVS Education

Make sure you don't miss our upcoming webinars and our new initiatives

**IPVS** International Papillomavirus Society  
**Cervical cancer elimination in the Asia Pacific: Does one size fit all?**

**WHEN?** Saturday, July 16, 2022  
14:00-15:00 SST (Singapore)/8:00-9:00 CEST (Geneva)

**FREE & LIVE WEBINAR**

**MODERATOR:**  
**Dr. Ida Ismail-Pratt**  
OBGYN Specialist and Medical Director, The Obstetrics & Gynaecology Centre, Singapore

**SPEAKERS:**  
**Prof. Neerja Bhatia**  
All India Institute of Medical Sciences (AIIMS), New Delhi, Delhi, India  
**Dr. Karen Chan**  
Department of O&G, University of Hong Kong, Hong Kong  
**Prof. Suzanne Garland**  
Reproductive & Neonatal Infectious Diseases, University of Melbourne, Australia

[www.ipvsoc.org](http://www.ipvsoc.org) **REGISTER NOW!**

You are invited to this webinar on 16th July organized in collaboration with the Asia-Pacific HPV Coalition. Join Prof. Neerja Bhatla (India), Prof. Suzanne Garland (Australia), Dr. Karen Chan (Hong Kong), and Dr. Ida Ismail-Pratt (Singapore) in a conversation that will address the challenges in HPV vaccination, screening, and treatment in the Asia-Pacific region. The speakers will also discuss strategies that can push Asia-Pacific towards the World Health Organization's cervical cancer elimination goals.

### Successful 1st IPVS ECHO® meeting

IPVS held its first IPVS ECHO® meeting on 13th May. The meeting focused on **vulvar intraepithelial neoplasia (VIN)** and was attended by **17 participants**. Prof Jacob Bornstein gave an excellent lecture on the contemporary approach to VIN. It was followed by the presentation of **2 patient cases** which were reviewed by a panel of experts. Recommendations were shared to the 2 members who presented their case, during the meeting and summarized in writing afterwards. The meeting was intentionally kept small to guarantee a safe space for discussing patient cases.

Thank you to the IPVS ECHO Committee for leading this initiative and to Dr Kimon Chatzistamatiou for facilitating this very first IPVS ECHO® meeting.

## IPVS ECHO®

A telementoring initiative brought to you by the International Papillomavirus Society

You can send your questions to:  
[ipvseducation@kenes.com](mailto:ipvseducation@kenes.com)

Do you have a patient case on which you need clinical guidance? Submit your case now for presentation at the next IPVS ECHO® meeting !

We are launching a call for case submission for the second IPVS ECHO® meeting. If you have a patient case linked to an HPV-related disease which you would like to present to a group of experts, we encourage you to fill up the [online form](#) to submit your interest. Your case will be reviewed and may be included for presentation at a future IPVS ECHO® meeting.

**Submission deadline:** 14th July 2022

[Submit your patient case >>](#)

## IPVS Advocacy Campaign

Access the latest IHAD Campaign news

### HPV Stories

Within the HPV network there are many inspiring and informative stories to be shared, which is why IPVS is launching 'HPV Stories', a new feature on the [AskAboutHPV.org](http://AskAboutHPV.org) website. The goal is to reduce the stigma around HPV and to convey the message that HPV affects everyone, directly or indirectly.

### Quarterly IHAD Campaign Partner Meet & Share Sessions

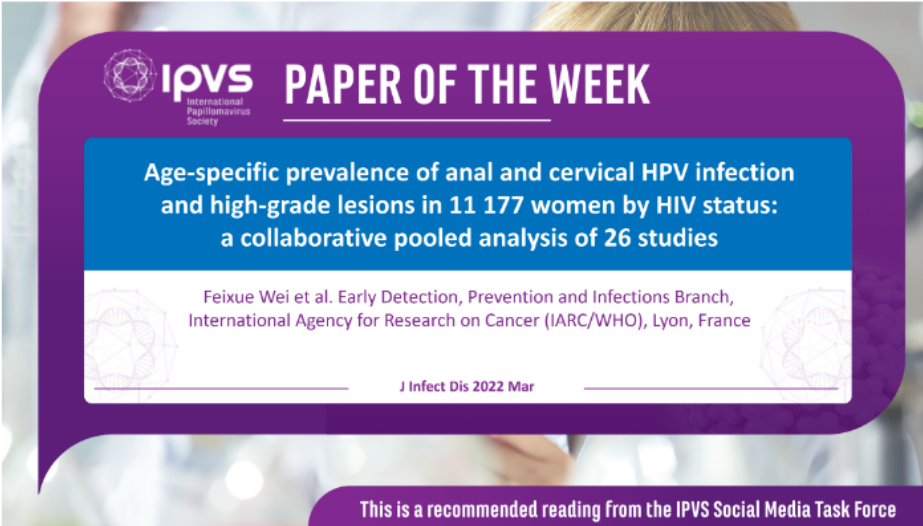

Campaign partners around the world often face similar opportunities and challenges in their HPV awareness and advocacy efforts. To **exchange ideas** and **strengthen connections** among partner organizations, the IPVS Advocacy Campaign Committee will be hosting quarterly 'Meet and Share' sessions.

The door will be open for other relevant local organizations to join these sessions and learn more about the IHAD campaign and IPVS. Date and time for the first meeting will follow soon.

---

## More about our initiatives

Hear about our recent activities

The graphic features the IPVS logo (International Papillomavirus Society) and the title 'PAPER OF THE WEEK'. The main text is 'Age-specific prevalence of anal and cervical HPV infection and high-grade lesions in 11 177 women by HIV status: a collaborative pooled analysis of 26 studies'. Below this, it lists the authors: 'Feixue Wei et al. Early Detection, Prevention and Infections Branch, International Agency for Research on Cancer (IARC/WHO), Lyon, France'. The journal reference is 'J Infect Dis 2022 Mar'. A purple banner at the bottom of the graphic states: 'This is a recommended reading from the IPVS Social Media Task Force'.

**NEW ! PAPER OF THE WEEK**

Since June 3rd, IPVS has launched a new activity, through its social media task force: the paper of the week. Every **Friday**, you will see on our Twitter, Facebook and LinkedIn accounts a post to feature the paper of the week which the task force has selected as recommended reading for our audience.

Members who are keen to have their research work featured on IPVS social media should send an email with the link and abstract of the paper to IPVS Office:  
[ipvsoffice@kenes.com](mailto:ipvsoffice@kenes.com)

### IPVS Policy Statements

The IPVS Policy Committee develops policy statements on a regular basis. If you have missed the joint statement with the HPV Prevention and Control Board released earlier this year, you can read it here:

- [HPV prevention and control - the way forward](#)
